We produce advertising pylons, greeters and totems using steel, aluminum and plastics.

We build pylons of various heights, from 1 m to 6 m.

We price pylons individually based on the entrusted project.

Price in box for double-sided pylon PROWLLESS PARK - height 500 cm, width 200 cm

Steel substructure

Sides - aluminum profiles painted in a given color

Face - aluminum, graphics milled through, plexiglass glued on the bottom with glued foil to obtain a given color.

LED backlight from the inside.

Installation: concrete foundation with raised pins / pylon placed with feet from above on pins, screwed together with assembly nuts.

Electrical connection to the previously routed 3x2.5 mm electric cable (on the customer's side) within the foundation.

The pylon is prepared for assembly by the customer on his own according to the attached assembly instructions.

Our installation - calculated individually.
