Braille room number plate.  
Size 20 x 20 cm  
Two-layered numbers + braille number in the form of steel balls  
The number is taped with double-sided adhesive tape.  
Brushed silver aluminum background  
Possibility of any color of the top layer.  
Example in a box - black matte.

Door plates with braille balls for the blind, also known as tactile marking plates, are special plates placed on the door that enable the blind to recognize the room.

Tactile marking plates have raised balls or tabs that are positioned in a specific way to mark text or a room number. Thanks to this, blind or visually impaired people can touch the plate and read information about the room.
