Door plates with signage in Braille. They enable people with visual disabilities to quickly find information without the need to seek help from others.

Silver, glossy plate, elegant rounded corners, steel convex braille points.

Dimensions: 10 x 20 cm

The plates are attached with double-sided 3M adhesive tape.

The signs have convex steel balls in the Braille system.

Hanging our signs in or on a building makes a given place accessible and adapted to the needs of people with visual disabilities.

The Braille system was developed in the 19th century by Louis Braille to enable blind people to read and write using a system of raised dots.
