Door plate with writing in Braille.

We use transparent balls making this product. In this way, the plate for a blind person is nice and smooth to the touch, but at the same time pleasing to the eyes of sighted people. Transparent balls shine in the sunlight and have a crystalline, glass appearance. They are an interesting alternative to traditional steel balls.

Color: matt black, white writing.

Additionally, our plate has a QR code printed on it, which, when scanned with a phone, shows all the necessary information.

Dimensions: 5x20 cm

Minimum purchase: 10 pcs.
