

## Note fields, bumps, touch points for the blind

Net price for 1 pc.: **7,50 PLN**

Gross price for 1 pc.: **9,23 PLN**

Quantity in package: **100**

Net price: **750,00 PLN**

Gross price: **922,50 PLN**

Guide paths for the visually impaired and blind consist of convex lines and dots.

The guide lines are the so-called guide path along which the visually impaired move.

The path usually consists of 3-6 lines in a row.

The guide path ends with a note field, i.e. a field with tactile bumps.

The note field informs about an obstacle on the way (stairs, doors, elevator, reception), a change in the direction of the path or the end of the guide path.

The ordering party should inform about the number of note fields and dimensions - this results from the design or arrangements with the investor.

Lines from a polyurethane guide strip with the following dimensions:

length 295mm, width 35mm, height 5mm.

Available colors: black, yellow, white, gray. The strip is glued with glue.

We offer two types of solutions for guide paths:

1

Guide strip - length 295mm, width 35mm, height 5mm.

<https://investmedia.eu/en/o/Paths-leading-for-the-blind>

**+ attention points - touch bump - ø 35 mm, height 5 mm ( price in a box for 100 pcs. )**

Tactile bumps glued each point separately on glue to the surface.

Distance of points from each other 6- 8 cm

or

2

Touch mat with guide strips - length 300mm, width 300mm, height 5mm
