Balcony foil with a frosted, sandblasted effect.

Sandblasted balcony foil limits visibility and reduces the transparency of the glass.

Graphics can be cut through the foil.

We suggest selecting our ready-made graphics from photos from our projects.

Measure your windows, e.g.:

3 m wide x 1.10 m high x 3.3 m² = select in the basket x 4

2.6 m wide x 0.9 m high = 2.34 m² = select in the basket x 3

Always if you exceed the first full digit when measuring, select 1 m² more in the basket.

We will refine your design:

Provide us with your dimensions, including the glass mounting brackets if the glass has them – this can be a hand-drawn drawing.

Choose the entire foil or a specific motif from our projects.

You can also send us a photo of your balcony from the outside.
